

# AIR POLLUTION

Smoke and stuff from cars, trucks, factories, homes & schools.

Exhaust fumes and hot sunny days creates **SMOG** or **OZONE**. People can get sick because of it. But the effects of Air Pollution are creating some bigger environmental and health problems too!

**ACID RAIN**  
(SO<sub>2</sub> from midwest)

**OZONE (SMOG)**  
Maine's "Bad Air" Days  
(Sun + Heat + SW Air)

**OZONE HOLE**

(In Stratosphere:  
Good Up High,  
Bad Nearby)

**GLOBAL WARMING**

(Carbon Dioxide {CO<sub>2</sub>} & Green-house Gases)

**HAZE & FINE PARTICULATE**

**Black Carbon**
